AUTO POWER ADAPTER

Model: AC121

FEATURES

- Low Input Voltage Disconnect
- High Input Voltage Disconnect
- Output Short Circuit Protection
- Output Overcurrent Protection
- Internal Over Temperature Protection
- Field Replaceable Input Cables
- Output Power up to 120W

TECHNICAL SPECIFICATIONS

- Input Voltage: 100 - 240 VAC
- Output Voltage: 20.0 VDC
- Total Load Current: 6.0 A
- Weight (approx.): 1.6 pounds (.657 kg) excluding cables
- Dimensions (approx.):
  5.37 x 2.30 x 1.36 inches
  (136 x 58 x 41 mm) excluding cables

Stay powered and productive with the Lind Electronics AC121 power adapter, designed to deliver reliable and efficient power for Dell laptops and devices from an AC power source. Built for durability, this adapter ensures consistent performance in demanding environments, making it ideal for mobile professionals, field technicians, and first responders. Its robust construction is engineered to withstand the challenges of daily use, providing peace of mind wherever your work takes you.

Designed with safety and longevity in mind, the Lind AC121 adapter includes advanced protection features to guard against overvoltage, short circuits, and overheating. Whether you're working on the road, in the office, or on-site, this adapter provides a dependable power source to keep your devices running at peak performance.

The AC121 power adapter features a power- on LED and universal switching for 100 - 240 VAC input voltage. The unit comes with a 36-inch output cable that plugs into your Dell laptop and is supplied with an AC input cord.

Trust Lind Electronics to deliver the rugged reliability and power you need to stay connected and productive!
