Our Lind Electronics AC/DC & DC/DC Combo adapter is designed to power a mobile device from either an AC or DC power source.

The adapter features a power-on LED and universal switching for 110-240 VAC input voltage. The unit comes with a 36-inch output cable to charge the notebook or tablet; an 18-inch cigarette lighter input cable to power direct from an automobile; and a 72-inch AC input cord to power direct from an EU/UK/US AC power source. In addition, the adapter has a USB socket that can be used to charge devices such as cell phones, digital cameras, PDA's and more.

Lind power adapters incorporate the highest degree of circuit protection for your devices and our robust design makes our products well-suited for use in rugged mobile environments and applications. The case is designed with a finned exterior to improve heat dissipation. Lind also offers custom and detachable input cables, which can be used to connect various power sources to the adapter.
